

TECHNICAL SPECIFICATIONS

4D Scavenger® skid for piloting

Compact piloting equipment for extraction of dissolved raw materials. Modular and customizable design enables easy installation and smooth operation.

Components

- > **Pump type:** Peristaltic or magnetic drive pumps
- > **Couplings:** D32 flanges or hose fittings
- > **Instruments:** Pressure, flow, temperature and pH/Conductivity, liquid level sensors
- > **Process control:** Automatic with Siemens S7 1200 with touchscreen controls and data logging or manual without control unit

Operating range

- > Capacity: 1-5 m³/h
- > Temperature: 0-60 °C
- > Pressure: 0.5-3 bar
- > Power: 230V, 3 kW

Technical details

- > Size: Approx. 800x1000x1800 mm (WxLxH)
- > Weight: Approx. 80-150 kg
- > Technology: 4D Scavenger®
- > Model: Skid mounted pilot equipment
- > Manufacturer: Weeefiner Oy
- > Country of origin: Finland
